Report on Field Visit to Science Centre and
Gee Dee Naidu Museum
11.11.2021

Department of Mathematics arranged a field trip for B.U.G. Mathematics Students to Science centre and Gee Dee Naidu Museum, Coimbatore on 11.11.2021. The four galleries of the Science center houses Scientific exhibits & demonstration models. The first center called Textile Industry shows various technologies used in the textile industry, both historic and modern times. The next gallery was about the history of Astronomy - right from Galileo to Present day astronomers. The third gallery demonstrated scientific principles. Detailed explanations are displayed next to each exhibit for people to have better understanding. The last gallery had many engineering exhibits and explained the technological principles behind each. Outside the building, in the park area, there are more scientific exhibits and the Pre-historic dinosaur section with boards of information.

Also, this visit gave our students a better understanding of learning science with fun through the models head on platter, leave your shadow and colour shadow. They are motivated to create 3D mathematical models on their own.

In Gee Dee Naidu Museum, types of computers, calculators, Electrical home appliances, UMS products, types of radios, Televisions were exhibited. Students came to know the inventions of G.D Naidu and his power of knowledge. Life history of G.D Naidu

has motivated our students to think innovatively while studying and after. Finally, through this field visit, students got an idea that to create models on their own, related to their curriculum and the role of science in their daily life activities. Also, they understood that they have to learn subjects with suitable ^{to} daily life examples for better understanding.
