DEPARTMENT OF CHEMISTRY

Report on Handling and maintenance of electronic equipments

Date : 21.9.2017

Resource Person : Er.N.Adaikkalam
Senior Service Engineer
Systronics (India)Limited
Systronics Division,
Chennai.

Participants : 7 staff members and 2 Lab Assistants

Without proper knowledge of calibrating and handling of the electronic equipments, it can be very difficult to achieve accurate results for any experiment. Even a slight error in the measurements can skew the final experimental results and harm the reputation of the particular instrumental technique.

The following are the electronic equipments demonstrated for handling and maintenance.

- Analytical Balance
- Conductivity meter
- Potentiometer
- Colorimeter
- UV Spectrometer
- Colorimeter
- spectrophotometer
- Centrifuge machine
