

Report

Programme Type : National Level Webinar

Topic : The Role of Forensic Science in Human life

Date: 14.6.2021 Time : 11.00 am to 2 pm No. of Beneficiaries : 350

Resource Person : Mr. K. Pari

**Assistant Director (retd.)
Forensic Sciences Department
Government of Tamilnadu**

The topic was brand new to the students. The resource person gave every fine detail to the students to familiarize them to this new branch of study. The resource person spoke on the fundamental ideas, some terminologies involved in forensic science like Scene of Crime, transient evidence, principles of forensic science, class and individual characteristics, and how physical evidences can be a link between the crime and victim. He discussed elaborately the following headings with suitable case studies.

- The basic crime scene tasks
- Experts assisting the Scene of Crime
- Systematic approach towards indoor SOC
- Systematic approach towards outdoor SOC
- Establishing the Identity
- Nature of injury
- Types of weapons used
- Sources of weapons used
- Nature and manner of death
- Collection of material evidences

Opportunities for students in the field of forensic science (i.e) entering a career in the field of forensic science (posts available, exams to write & when it will be called for, colleges and universities running forensic science courses) were also discussed in the forum. He also projected about the safety measures to be adopted by women when they are alone. He explained how women should handle themselves in some abnormal situations to protect themselves. Eg. Cyber crime related activities.
