

Extension Report 2017-2018

As a part of extension activity, 19 students of III B.A Economics conducted awareness programmes on Micro Forest and Good touch and bad touch by exposing themselves as dramatists. This was conducted on 06.02.2018 to the primary class students of Bharathi Matriculation School and general public in the NSS adopted village – Kaniyur. 123 school students and 44 villagers benefited from this programme. The students understood the value of vegetation and the importance of growing plants in and around their houses. They spread the awareness to the neighborhood also. They took pledge regarding “Forestation and the rainfall”.

The students conducted a drama regarding good touch and bad touch. The drama pointed out how to behave the school students at various places like home, school, market, bus and park etc.,
