Extension Report 2019-2020

Trees contribute to their environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe.

With the understanding of the importance of nature and trees, to plant more and more trees 33 students of III B.A Economics participated in **Seed Ball Preparation** arranged by RajalakshmiGenguswamy Matric Higher Secondary School, Udumalpet on 25.06.2019.
