Importance of IPR in Technology Transfer

Date : 28.05.2021 (Friday)

Time : 10.30am -

platform: Google Meet

The Webinar on Importance of IPR in Technology transfer was organised by Department of Physics under DBT Star college scheme on 28.05.2021 (FN) with the purpose of giving fundamental awareness regarding the Intellectual Property Rights and patent filing process to the students. Dr. N. Priyadharsini, Assistant Professor of Physics, PSGR Krishnammal College of Arts and Science, Coimbatore was the resource person of this webinar. Mrs. S. Deepika, Assistant Professor of Physics, delivered the welcome address.

Technology transfer is one of the most important tools for the development of any nation. The webinar aims to enhance the knowledge and understanding of the interplay of Intellectual property rights includes copy rights, trade mark, patent, logo design and geographical indications. She also guided the students how to file IP process and how to apply patent and its Practical applications.

The webinar ended with question and answer session related to IPR. Students are participated in the webinar with great enthusiasm and clarified their doubts. The webinar was ended with vote of thanks by T. Yuvarani, III BSc Physics student. There are 100 participants who benefited from this webinar.

Dr. S. ARAM, M.Sc., M.Phil., PGDCA., Ph.D.

Patent

- A "patent" is an exclusive right granted which provides the exclusive 'right to exclude' all others and prevent them from making, using, offering for sale, selling or importing your invention.
- For an invention to be patentable -
 - It must be new
 - non-obvious to any person who is skilled in the relevant field of technology
 - must be capable of industrial application
- A patent is valid for 20 years, starting from the date of filing of the patent application and this term cannot be extended.
