Date	Details of the Activity	Topic	No. of Beneficiaries
07.12.2018	Demonstration of Physics experiments for Higher Secondary School students by B.Sc. Physics students	Sonometer, Surface Tension, Viscosity, Optics & Electronics	36 students

7.12.18

On 7th December 2018, Demonstration of experiments were conducted for +1 and +2 students of Thalaiyoothu School, Palani. 16 students from +1 class and 20 students from +2 class were attended and benefited. Some of the experiments demonstrated during the consulting program include: verification of laws of vibrating stretched string using sonometer, Determination of ac frequency using sonometer, Surface tension of water by capillary raise method, Viscosity determination by stoke's method, Refractive index of the material of the prism using spectrometer, Verification of truth tables of logic gates using Ic's, Simple Pendulum. The students from III B.Sc Physics students were also involved in the activity and the school children enthusiastically interacted and clarified their doubts.

Today our school students +1 and +2 attended Consultancy programme. In physics Department HOD and other staffs are very friendly approach. They teach our students very kindly. They teach all practicals in physics lab. Physics Department students are also very co-operatively. I thank all physics dept HOD, staffs and students. I convey my heartiest thanks to G.V.G College principal, Physics Department HOD, staffs and students. All treat our staffs and students with full of kind and with snacks. Once again I thank all our physics Dept.

Thank you.
