Report

To commemorate Republic Day, celebrations on January 26, 2023, the Green Initiatives and Environmental Club organized a student-led collection of chocolate wrappers for preparing Eco Bricks. All the faculty members and students were asked to fill the plastic bottles with chocolate wrappers. Here, non-recyclable wrapper waste will take 100 years to get destroyed, they were collected and made as "eco-bricks," and it is a great initiative to prevent pollution in land, water, and air. The Green Initiative and Environment Club's activity of collecting wrappers was well received by all students and faculty by filling the plastic bottles into eco-bricks.
