Stream Initiatives of Environmental Club

Events: Components Based Activity - Seed Ball Preparation.

Place: Sri G.V.G. Visalakshi College for Women

Date: 04.12.2023 To 15.12.2023

The 'Seed Balls making' activity was conducted for all first year students as an initiative towards greening the environment. The increasing population is creating pressure on resources, which has resulted in many environmental problems. The aim of this activity was to make the student community as well as public aware about the environment and its conservation. The objectives of this activity were to involve students in preparing seed balls and distribute them among the students, teaching and non-teaching staff and to create awareness about a better environment among the public, in an innovative manner. The seed ball to be prepared in the EVS class hours.

On 04.12.2023, All the first year students (Strength 404) undergoing the Environmental Sciences course, made 1,840 seed balls of different vegetable seeds such as Mustard, pumpkin, neem, Coriander seed, fenugreek, cumin seed, Vigna radiata and Ladies finger. The seed balls were made by mixing soil, compost and vegetable seeds. The students were instructed by the concerned teachers about the procedure of making the seed balls. After making the seed balls, they were kept to dry for 24 hours. Finally the seed balls were packed and labeled. The seed balls were distributed to all the students as well as the teaching and non-teaching staff members of the college.

The seed balls were dispersion by the student of college at the village area to grow plants and trees.
