WELCOME YOU ALL !

Green Initiative & Environmental Club

Events : Components Based Activity - Indoor Plants.
 Place : Sri G.V.G. Visalakshi College for Women
 Date : 11.01.2024 to 24.01.2024.

Green Initiative and Environmental club conducted a component based activity on "Indoor Plants". The objectives of the activity to growing plants in the classroom can provide a wealth of benefits for students and staff. Indoor plants have been linked to improved concentration and memory as well as a reduction in stress. Research has also linked indoor plants with increased productivity and reduced mental fatigue, all of which can be beneficial in the classroom environment.

Classrooms will have the most success with plants that require low to medium light. Such as spider plants, golden pothos, peace lily, snake plant, philodendron, and flowering plants. Research conducted by NASA some years ago found that many of these plants remove toxic from air. Indoor plants increase the humidity in the air. All 5 U9 students are participated in this event.
