DEPARTMENT OF MATHEMATICS

EXTENSION ACTIVITY - "ILLAM THEDI KALVI (Education at Doorstep)"

The Tamilnadu government launched the "Illam Thedi Kalvi" Programme to address the learning gap that had arisen among students due to the closure of schools during the Covid-induced lockdowns in the state. This scheme aims to engage students of classes I to VIII every evening for an hour, in spaces that will be identified and created in the community.

The project is set to be implemented for a period of six months to impart educational skills among the children. Volunteers will undertake instructional activities for students in the evenings after school hours, according to the plan. 10 of the students (6 from III UG, 1 from I PG & 3 from II PG) have volunteered and registered themselves for the initiative and were taking classes on basic mathematics in their allotted schools.
