

SRI GVG VISALAKSHI COLLEGE FOR WOMEN

(Autonomous)

UDUMALPET – 642 128

POLICY GUIDELINES FOR ENVIRONMENTAL SUSTAINABILITY

<http://gygvc.ac.in/environmental-club.html>

Scope:

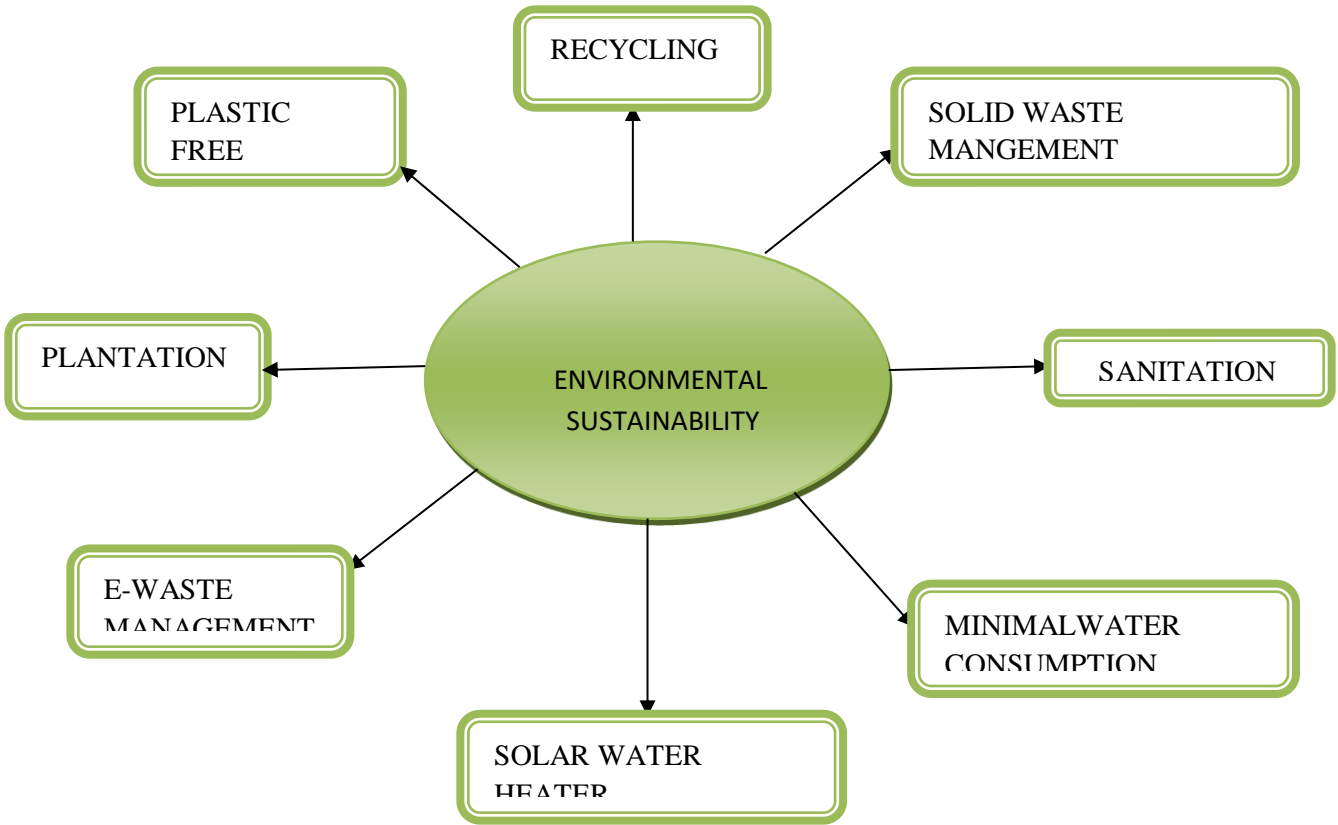

This policy applies to all the people in the college campus.

Purpose:

The policy provides the guidelines to the students, faculty and other in the campus regarding conservation and protection of the environment .

Procedure / Practices:

- Minimal use of water consumption.
- Turn off the computers when not in use.
- Turn off all the electrical equipments before leaving the class room/labs/campus.
- Students residing in the neighborhood of the college can reach by walk or use bicycles.
- Vehicles are entertained in the campus with driving license, insurance etc
- Students and Staffs are advised to park their vehicles in the parking space provided.
- Trees are pruned,watered and appropriate care is taken for the maintenance.
- Campus is a plastic free zone. Avoid using plastics in and off the campus.Plastic bags are banned in the college campus.
- Appropriate training is provided for both students and staff members for sanitization of on and off campus.
- Hazardous waste are identified and disposed appropriately.
- Environmental club,YRC and NSS of the college to undertake all possible activities relating to the environmental consciousness.
- Efforts are taken to plant the trees in around the locality to protect from carbon emission.
- Electricity consumption is reduced using LED tube lights.
- Solar water heaters are used in the hostels.
- Waste management is based on “ Reduce, Recycle and Reuse”.
- “A Tree for a birth star” drive depicts the eco-friendliness attitude.
- Plants are given as a gift to the retiring faculty and outgoing students is a best practice followed by the students.

Bicycles

Public Transport

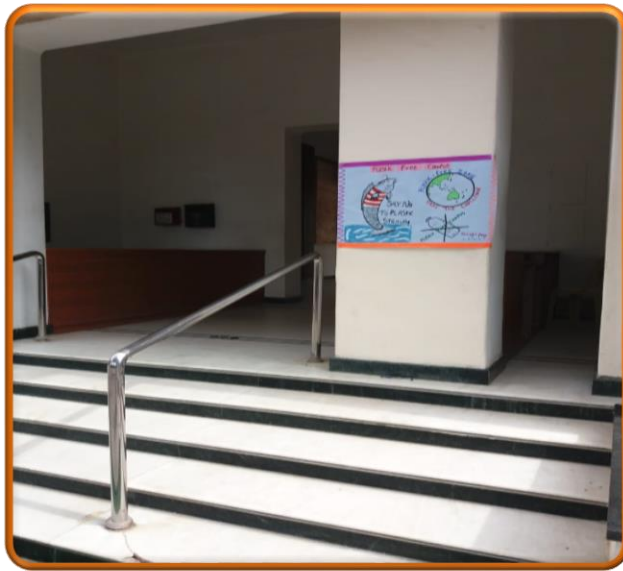

Pedestrian Friendly Roads

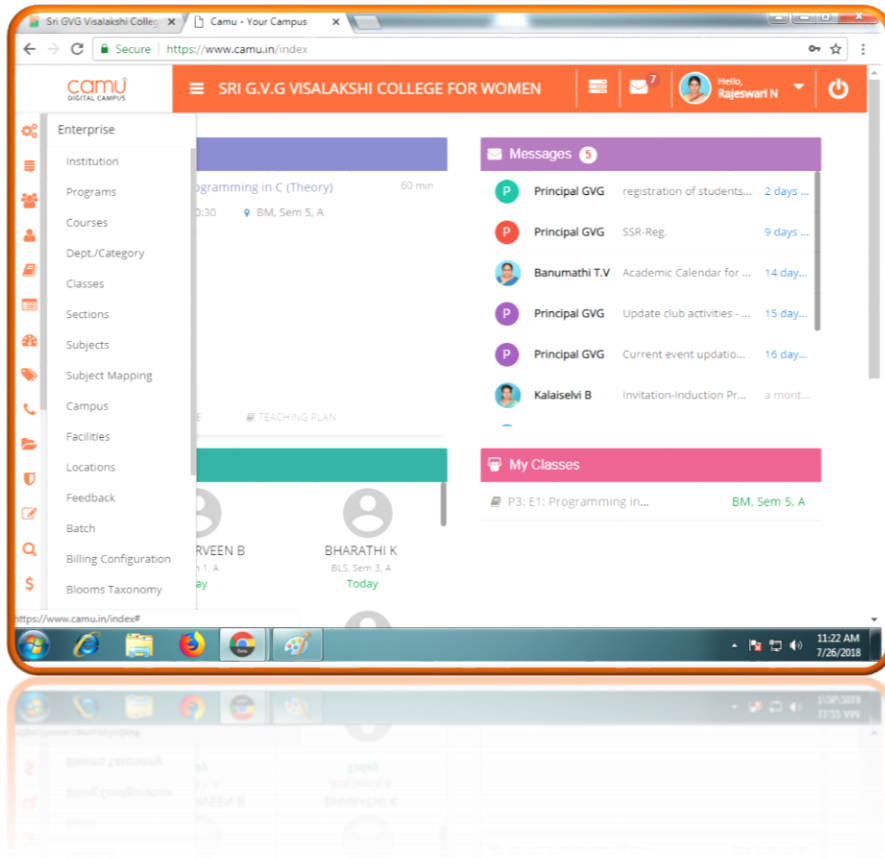

Plastic free campus

1. During first year admission students are instructed not to bring “use and throw” plastic materials inside the campus failing which fine is imposed.
2. Environmental Science is offered for I UG students.
3. Awareness programme about environment pollution and how to protect environment is conducted by students to the public.
4. The students and faculties in our campus avoid using plastics.
5. NSS students are divided into groups to monitor the dining hall, wash area, canteen and other common places to keep a watch on use of plastics.
6. Students are advised to use paper plates, jute materials etc...

Paperless office

Green landscaping with trees and plants

Awareness on Organic Farming

GREENLIFE BIOTECH LABORATORY
 QUALITY INPUTS FOR ORGANIC AGRICULTURE
 EXPERT AND POWERFUL FORMULATIONS

BIOFERTILIZERS

Nitrogen

- Green Spirilla (Azospirillum)
- Green Azoto (Azotobacter)
- Green Aceto (Gluconacetobacter)
- Green Rhizo (Rhizobium)

Phosphorus

- Green Phospha (Bacillus megaterium)
- Green Dual (Bacillus subtilis)
- Green Awamori (Aspergillus awamori)
- Green VAM (Vesicular Arbuscular Mycorrhiza)

Potassium

- Green K (Frateuria aurantia)

Green Bio NPK (Microbial consortium)

Micronutrients

- Green VAM - All micronutrients
- Green Sulphur - Sulphur
- Green Dual - Zinc
- Green Silican - Silica

BIO CONTROL AGENTS

Disease control

- Green Light (Trichoderma viride)
- Green Hara (Trichoderma harzianum)
- Green Combat (Pseudomonas fluorescens)
- Green Leafcare (Bacillus licheniformis)
- Green Health Plus (Microbial consortium)

Pest control

- Green Beauveria (Beauveria bassiana)
- Green Cole (Beauveria brongniartii)
- Green Meta (Metarrhizium anisopliae)
- Green Basivert (Beauveria bassiana + Verticillium lecanii)
- Green Verticil (Verticillium lecanii)
- Green Larvicide (Bacillus thuringiensis)
- Green Actino (Actinomycete)
- Green Neem Plus (Neem oil + Pungam oil)

தாதுவோடு உதவியோடு:

- கீரை (பீப்பாசை) (பயிர்வென்றொழில் விவசாயிகள்)
- கீரை (நீரகரி) (புழுவெலையா சிமைப்பட்டுள்ளவர்கள்)
- கீரை (புலா) (பயிர்வெள்ள அடிப்படை)

துயாரியப்பாளர்:

கீரைவெள்ள அடிப்படை உருவாக்கப் பட்ட
