

On this day in 1928 a major discovery was made in our country...

That was discovered by Sir C.V Raman

The basic objective in the observation of National Science day is to spread the message of importance of science and its application among young people

The Raman Effect  
We are delighted to see a rain bow. Shades of red, orange, yellow, green blue, indigo and violet are seen in it. Colors bands are seen are known as spectrum.

These spectral lines are characteristic of light passing....

Sir. C.V Raman  
His discovery won him the Nobel prize and inspired a whole generation...
