Code of Ethics in Research Activities

This Code of Ethical Conduct was established by the College in order to preserve and promote the institution's reputation for excellence and integrity. It lays out the following standards in research to which the faculty members, research scholars and students to adhere. All research activities must adhere to the values and mission of the college.

Faculty and Students in their Dissertation/ Project Report /Research Article shall:

- Conduct research responsibly by adhering to all legal and ethical guidelines
- Ensure the accuracy of all data used in the research work
- Take meticulous care of the equipments and material sources
- Make sure that only relevant data and correct research results are published in journals, conferences, and reports
- Avoid potentially misleading or vague statements.
- Avoid plagiarising, which is the act of copying someone else's work or idea and passing it off as one's own
- Properly attribute and identify the source of information in a manner consistent with the needs and specifications of the relevant discipline and in accordance with the rules, regulations, and conventions governing the source
- Ensure that manuscripts are checked for originality using "Plagiarism Checker"
- When submitting a dissertation or project report, also submit a letter of commitment stating that it was prepared by the researcher and that it is an original work free of plagiarism.
- Respect the confidentiality of sources by not using or disclosing data or information that discloses confidential information.
- Use, distribute or share important resources and equipment according to the conditions established by the college.
- Adhere to safety practices in all research activities.
- Ensure that laboratory wastes are properly disposed or treated which will not result in environmental concern.
- Report the violation of any ethical code to the committee
