DEPARTMENT OF CHEMISTRY

Report on DBT Star STATUS College scheme sponsored Guest Lecture

Date : 19.01.2023
Audience : II and III B.SC Chemistry students
Topic : Fundamentals of Electro Analytical Techniques
Resource person : **Dr.J.Mallika**
Assistant professor in Chemistry
PSG College of Arts and Science
Avinashi Road, Civil Aerodrome Post,
Coimbatore.

Programme Co-ordinator : Dr.M.Malarvizhi. Assistant Professor and Head

The event started with invocation song followed by a welcome address. In her talk she emphasized the importance of basic science & research. The lecture started around 10:00 am and ended around 1:00 pm. Dr.Mallika introduced the types, basic principles of electroanalytical techniques, different types of current and instrumentation of polarography, factors affecting the polarogram and applications. The lecture was received with great admiration by the students and they also found the slides appropriate. The event ended with vote of thanks.

The following is the feedback obtained from the faculty and the students of the chemistry department participated in the guest lecture .

- Information was presented in an organized manner.
- The content volume of the information was appropriate and clear.
- Lecture content contain information to practical problems .
- The presenter related content to current evidence in the literature.
- There was enthusiastic Interaction with the audience.
- The presenter kindled the students to actively participate in the discussion.
- Very much useful and overall rating given is outstanding.
