

BOS Date : 07.06.2021

Feed back analysis from all Stake Holders	Action taken
Suggestion of introducing Analytical Chemistry as separate paper in third year (Alumnae Feed back)	Analytical chemistry is introduced in semester VI as elective paper.
Suggestion of studying Chemical Technology paper in third year. (Teacher Feed back)	Chemical Technology paper is newly incorporated as optional paper for Analytical Chemistry in Semester VI
More weightage for Internship can be given (Teacher Feed back)	Project and Internship is included separately as SEC III in V semester (Part IV)
Inputs on recent softwares related to Chemistry (Students Feed back)	Free softwares like ARGUS lab and artificial intelligence is included in Part IV SECT II : IT skills for chemists.
MOOC Course can be introduced as optional course. (Teacher Feed back)	MOOC course is introduced as optional paper under ALC II in VI semester with Diary chemistry
Syllabus Content is very high and can be diluted. (Students Feed back)	NO change is made.

BOS Observations:

- * Syllabus is excellent.
- * Content is helpful for Higher Studies and Competitive examinations
- * Newly introduced topics under SEC are highly commendable.

Newly Introduced Courses: 2020-2021

SEC I Professional English for Chemists

SEC II IT Skill for Chemists

SEC III Project and Internship

SEC IV Product-based Chemistry

NMEC Food preservation and Adulteration

Elective II Analytical Chemistry

Elective II Chemical Technology

Newly Introduced Courses: 2021-2022

Elective I Agro Industrial Chemistry (cluster course)

Part-IV Value Education, Human Values & Gender equity

Part-IV General Awareness - Online MDEC (or) Suryam Courses

Part-IV General Awareness - Professional Ethics.
