

Digital Convergence during the Pandemic

- The pandemic Covid19 brought a sea of change and forced the teacher and taught to experience a paradigm shift in the field of education.
- In spite of the tremor of pandemic explosion the millennium old education system did not lose its prominence because of the 7 year long usage of LMS-CAMU.
- The digital infrastructure in the campus came handy to address the issues in teaching-learning through the evolution of online teaching.
- All the activities of the campus were carried out virtually that resulted in a veritable record of crowning glory.
- The spectrum of activities include:
 - FDP on Digital Tools for Teaching, Evaluation and Research.
 - Capacity Development Program- Awareness on Trends in Technology.
 - Hands on training on online Tools – Students were given training to prepare pamphlets, audio-video posters, designing e-certificates and Invitations.
 - e- tools for Creating & Editing videos.
 - Soft Skill training was given to boost up the students' courage and confidence in facing an interview.
 - Students Induction Program, yoga for wellness was organized virtually in order to accomplish the derived outcomes.
 - Awareness programs on health, women empowerment, environment sustainability, values, IPR and Startups and thrust areas etc.
 - Interview with great personalities were also arranged.
