Azadi Ka Amrut Mahotsav is a series of events to commemorate the 75th Anniversary of India's Independence. Students of History Department participated enthusiastically in the competition.

This programme made the students to understand that the downfall of the British Empire didn't occur in a day nor did a linear set of events lead up to the empire's demise. It happened due to the collective efforts of hundreds of people, who would later be known as freedom fighters. The Freedom Fighters of Kongu Region had a strong footing and involved themselves in national Movement. This event made the students to be familiar with the concept of the topic. # **REPORT**

## **DAY 1– 28/04/2021**

### **The Art of Public Speaking**

Ms.T.Narmadha was the resource person and she highlighted the importance of public speaking. The speaker should have a clear idea about the topic and speak in a polite way. One should begin one's speech by knowing the audience and also practice in front of a mirror or people to boost their confidence. She stressed that public speaking not only improves one's speaking skill but also improves the self confidence.

## **DAY 2– 29/04/2021**

### **The Eternal Bond**

Ms.V.Vanitha was the resource person and she spoke about friendship which is considered to be the eternal bond. She stated that it would be difficult to imagine life without friendship. Without friendship the world is incomplete and qualities like honesty, trust and understanding between two people develop this beautiful bond.

## **DAY 3– 30/04/2021**

### **Craze for Agriculture**

Ms.R.Sowmiya Anjali was the resource person and motivated the students to involve themselves in farming because agriculture is the artwork and commercial enterprise of cultivating soil, generating vegetation and elevating livestock. Two-third of the world population is mainly concentrated in rural areas, which might be predominantly agriculture-orientated areas. Executive summary:

**Introduction:**

"By enabling households to gain access to affordable nutritional protein, and also providing employment opportunities for rural based workers throughout the year...this will significantly lift the standard of living for the more marginalised and needy members of society."

**Recommendation:**

"This poultry farm is an ideal solution for achieving such a combination of goals. Whilst other types of farming enterprises have been assessed during the consideration of this poultry farming business, it is clear that poultry businesses provide certain merits which uniquely set them apart as being more advantageous to answer such problems."

**9.6.2020**

**Report of the Quiz**

*The corona virus (COVID-19) pandemic has changed daily life. New information comes out every day, and it can feel overwhelming at times.*

### **Objectives**

- To evaluate the knowledge of the participants within academics as well as beyond academics
- To make them familiar with the prospects of quizzes and the objectivity of the questions.

Corona viruses (CoV) are a large family of viruses that cause illness ranging from the common cold to more severe diseases such as Middle East Respiratory Syndrome (MERS-CoV) and Severe Acute Respiratory Syndrome (SARS-CoV). A novel corona virus (nCoV) is a new strain that has not been previously identified in humans.

Corona viruses are zoonotic, meaning they are transmitted between animals and people. Detailed investigations found that SARS-CoV was transmitted from

civet cats to humans and MERS-CoV from dromedary camels to humans. Several known corona viruses are circulating in animals that have not yet infected humans.

Common signs of infection include respiratory symptoms, fever, cough, shortness of breath and breathing difficulties. In more severe cases, infection can cause pneumonia, severe acute respiratory syndrome, kidney failure and even death.

Standard recommendations to prevent infection spread include regular hand washing, covering mouth and nose when coughing and sneezing, thoroughly cooking meat and eggs. Avoid close contact with anyone showing symptoms of respiratory illness such as coughing and sneezing.

World Blood Donor Day, an initiative by the World Health Organization (WHO), is observed every year on June 14. This day is celebrated every year to spread awareness about the significance of blood donation and to recognize the contribution of voluntary unpaid blood donors in saving lives.

The first World Blood Donor Day was observed by WHO in 2004 and was declared as an annual global event in the 58th World Health Assembly in 2005. The day is celebrated on the birth anniversary of Austrian biologist and physician, Karl Landsteiner. He is considered to be the founder of modern blood transfusion.

The Red Ribbon Club of our college Organized on State level Quiz Competition on the topic “Online Quiz Contest for WBDD” on 14.6.2021 to celebrate world Blood Donor Day.

The aim is to raise global awareness of the need for safe blood and blood products for transfusion and of the critical contribution voluntary, unpaid blood donors make to national health systems. The day also provides an opportunity to call to action to governments and national health authorities to provide adequate resources and put into place systems and infrastructures to increase the collection of blood from voluntary, non-remunerated blood donors.
