1.4 Feedback System

1.4.1 Whether structured feedback received from all the stakeholders.

1) Students	2) Teachers	3) Employers	4) Alumni	5)Parents
Yes	Yes	Yes	Yes	Yes

1.4.2 How the feedback obtained is being analysed and utilized for overall development of the institution?

Feedback from Students, Teachers, Parents, Alumnae and Employers are received for all the programmes. The concerned departments will evaluate the feedback, based on the parameters and attributes specified. The analysis of the same is carried out on the Likert scale ignoring 'neutral'. The report of the same is generated by each department and is submitted to the Principal and IQAC. Upon discussion with the Management and Principal action will be initiated. An action taken report will be duly generated by the departments.

The feedback process is carried out on an online basis with the regular format to update the level of satisfaction of stakeholders. The feedback is obtained for various aspects such as course delivery, Infrastructure, Learning resources, support services and general conveniences inside/ outside the campus. This process is done to measure/ enhance the quality. For example, feedback for courses by students, overall feedback by students, feedback from parents and public, employer's feedback and feedback from alumnae are received, analysed and action to be taken / taken reports are generated. Likert scale rating is used for analysing the feedback from students using a four point scale by eliminating the "neutral" option in the five point scale.

Students Feedback

Student's feedback is received for the course structure and satisfactory level of evaluation with regard to foundation level knowledge acquired, difficulty level of learning, applicability in day-to-day life, availability of learning resources, research orientation, skill development, employability etc. Student's feedback is also received on all parameters such as Assessment on Teaching-Learning, Availability of Infrastructure, Training programs conducted, Availability of Support facilities etc., This process is carried out on an Online basis through **CAMU**-Learning Management System.

Teachers Feedback

Teachers feedback are categorised as resident faculty and subject experts from other colleges. Resident faculty members are expected to submit the feedback in the prescribed format as and when directed by IQAC on various aspects of college functioning. Subject experts' feedback/suggestions are collected from the faculty members outside the college before/after the conduct of the Board of Studies meeting. The record of these and action taken are duly minuted by the Departments.

Parents Feedback

The feedback from Parents and Public are received on parameters concerning the complete functioning of the college including the overall support facilities such as ICT facilities, classroom facilities, Hostel facilities etc.

Alumnae Feedback

Students who had completed their degree programme and had left the institution, continuing their communication with the institution after their placement voluntarily submit their feedback in the format made available for them through emails/hardcopy. The alumnae also support for the student activities inside the campus towards their knowledge acquisition and training.

Employer Feedback

The Institution organizes On-campus and Off-campus recruitments and ensures placements for the students. The recruiters during their campus drive provide their observation about the student's response and performance. The suggestions expressed by them are duly attended and the Management facilitates for the action to be implemented in the subsequent year.

2.3.2 Students mentoring system available in the institution? Give details.

Yes. The distinct feature of Sri GVG Visalakshi College is the mentor system which was introduced from its inception. This is one of the most effective systems functioning in the institution that bridges the gap between the students and teaching community. Each faculty member is assigned a group of students as their wards. The interactions between them help the wards to have improved record of their activities, both in academic & personal fronts.

The teacher collects personal information from her ward. The teacher meets her wards informally outside of class study hours. The rules and regulations, welfare measures and various scholarships available and the ways to go about them are explained to the wards. Slow learners with difficulties in understanding and learning the subjects at the pace are paid individual attention, guided and trained by the mentor on the better ways of learning. Sharing of their own problems with their mentors' serve a sigh of healthy relief to the students, thus enabling them peacefully concentrate on their studies. If any problem is spotted, all kind of support, guidance and care will be given. Ward counseling takes place in a time bound manner.

If necessary the parents are called and counselling is provided to them too. Remedial coaching classes are conducted for underperformers and their performances are discussed during the ward meetings.

CRITERION VI –GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 Institutional Vision and Leadership

6.1.1 Mention two practices of decentralization and participative management during the last year

Case Study: 1. Curriculum design and Development

The primary purpose of Curriculum Design and Development is to ensure that the students receive integrated and comprehensive learning experiences that impact their personal, academic and professional learning.

This process involves the design and development of integrated plans for learning, implementation of the plans, followed by the evaluation through the measurable outcomes of the learning experience of the students.

In our institution the Board of Trustees provide a broad framework to the Principal to frame all the academic activities. The Principal is ably supported by IQAC, Head's of the Departments and Senior faculties in designing the syllabi for curricular, co-curricular, extra-curricular and the skill development programmes. The major decisions regarding curriculum design are taken in Council Meeting comprising of the Principal and the Heads of the Departments.

A blend of Top down and Bottom Up approach is adopted in designing the curriculum. Top down approach is adopted in curriculum development as suggested by the Board of Trustees, IQAC and the Curriculum Committee. Bottom up approach is practiced by providing autonomy to all the course teachers in restructuring the curriculum.

For each programme the curriculum design process begins at the course level which in turn fixes the context for topic selection and it sets the context for the learning experiences of the

students. Topics are selected by considering stakeholders feedback and bound together in structured manner by the course teachers and scrutinized by the HOD's and placed for approval by the Board of Studies.

Board of Studies constituted as per the UGC regulations carefully examines the syllabi for its content meeting the objectives of the Institution, stakeholders interest and the learning capabilities of the students. It is then approved by Academic Council. The quality of the curriculum is ensured by the Board of Trustees with the academic and industry experts in Academic Council and with the feedback of the stakeholders.

The curriculum for co-curricular activities-NSS, YRC,RRC, NCC are framed by the conveners in consultation with the Principal based on the directions of the Parent University, government policies, the local needs of the society targeted for service and the values the college wishes to impart to the learners in preparing them for selfless service. The conveners of various clubs plan the extra-curricular activities tobe carried out at the beginning of the year in the meetings with Principal and the programmes are also arranged on ad-hoc basis with the approval of the Principal.

The Principal and the Convenors of the Skill Development Centre and Value Education, jointly decide the various skill development programmes to be offered. The College union with the participation of office bearers organizes the programmes to nurture the national and social values.

 1. Title of the Practice:
COMMUNITY ORIENTED PHYSICAL FITNESS AND WELLNESS ACTIVITIES
   Objectives of the Practice:
➢ To improve the health status and level of fitness of the inmates of the college and the neighborhood community through an effective Physical fitness programme.

- ➢ To offer a variety of exercises to encourage general fitness in all walks of life.
- ➢ To recommend the necessary nutrients to meet the needs of Physical and Cognitive growth and development.
- ➢ To educate on the techniques of maintaining good health.
- ➢ To promote physical, psychological and social wellbeing.

The Context:

In the modern era, there has been a great threat to the physical and mental health of the people. This is largely due to the life styles of the people. It is well said that prevention is always better than cure. This theme has necessitated for the maintenance of keeping oneself fit.

People who are physically fit are also healthier and are able to carry out their daily activities in an effective manner. It also provides a relaxed state of mind.

Physical Fitness, Yoga and Recreative activities are much significant for healthy growth and development. The inventions of electronic devices and mobiles have taken away the physical and mental health of everyone, be it children or the elderly. The college takes utmost care to create awareness among the faculty, the students and the community about their wellness.

The Practice:

The sports and infrastructural facilities of the college are provided as a platform for the physical and wellbeing of the inmates of the campus and the neighborhood. The management is benevolent to open the facilities to anyone in need, be it public, the employees of the institution or the students. The physical education and the value education cell have devised some free health and wellness oriented plans for the employees, students and the community in the neighborhood of the college. Community people who utilize the campus facilities range from children to elderly who visit the campus.

In order to reduce the stress of the employees in the organization, the management motivates the teaching and non-teaching faculty to play games in the indoor stadium either in the early hours or in the evening. Most preferred games by the teaching and nonteaching faculty are the shuttle badminton, throw ball and tennikoit. Competitions are conducted for the faculty at the end of each year and they are honored by prizes. A good number of teachers utilize the Indoor stadium to relax their body and mind. Practices are indeed done with a sense of commitment to maintain a good health and also to have some fun around.

Students and Teachers practice together. This makes the teachers feel young and energetic and also to create a good rapport. This practice creates a feeling of togetherness and motivates the student's psychologically too.

The indoor stadium is open to the public and some of them use the shuttle badminton court for Practice. It mostly used in the early hours of the day. A professional coach is also available to provide tips for badminton.

The indoor stadium, the volley ball court and the hockey ground(multipurpose) are open to tournaments conducted by external agencies, associations etc., The hockey ground is open to the public without any restriction for morning and evening walk, It is also used by children to play games of their choice and the teens to practice football and cricket..

Students of nearby schools use the volley ball and throw ball court for practice. During the conduct of any tournament the hostel rooms are also offered for outstation participants.

Hostel students enjoy playing carom and chess during leisure time. Students also use the ground for NCC parade practice and cross country running practice. The students train themselves with self - discipline.

Conduct of Yoga classes is a significant activity to be highlighted. Yoga classes are conducted in the multipurpose hall in the second floor by a well trained yoga faculty. The indoor stadium, the volley ball court and the hockey ground (multipurpose) are open to tournaments conducted by external agencies, associations etc. Apart from the campus inmates children and their parents from the neighborhood also attend the yoga class on a free basis.

Evidence of Success:

The ultimate relaxation and happiness by reducing the work stress is the best evidence of success. The fun and frolic during the play creates a strong bonding within the working community and the happiness derived out of these activities improves the efficiency in work.

The practice relaxes the muscles and improves the general health conditions of the participants. It also induces the sportive spirit among the players. It enables the participants to keep their body and mind fit and also increases the metabolism.

Practicing **yoga** enables oneself to keep their mind and body in control. Many faculties undergo yoga training regularly. Staff club makes necessary arrangements for the regular and smooth conduct of yoga classes. This is a great boon for the faculty, since they are unable to spend their family time after working hours. They have expressed their happiness in attending and reaping the benefits of yoga and meditation.

Children who visit from the neighborhood enjoy the yoga classes and they try to attend the classes whenever they are scheduled during the holidays.

Participants of yoga class feel that they are conscious about their postures while in work place and at home. They also feel the flexibility in muscles and agility in their day-to-day activities.

Problems Encountered and Resources required:

At present the Resources are adequate for the number of takers/participants. In case of increase in takers, the management is ready to support with more facilities.

Problems regarding the employee participation are the inability for many staff to participate in the exercises due to their family commitments and working hours cannot be relaxed much for the same.

Even though there is coach, due to irregular attendances and practices, a professional coach cannot be made available on all days.

Children attend the yoga classes only during their quarterly/half-yearly or annual holidays.
