Feedback Analysis Report – 2018-2019

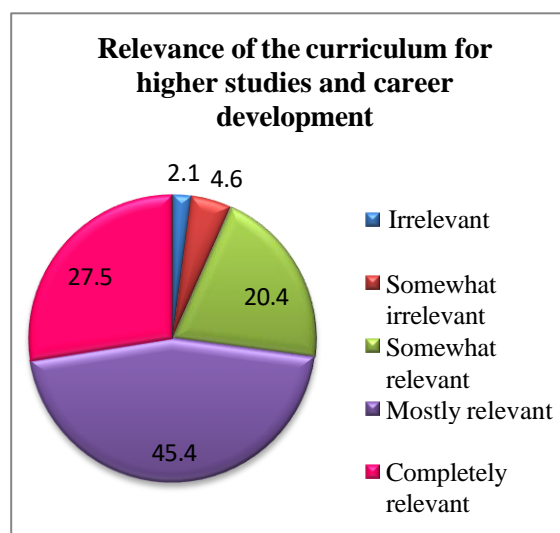

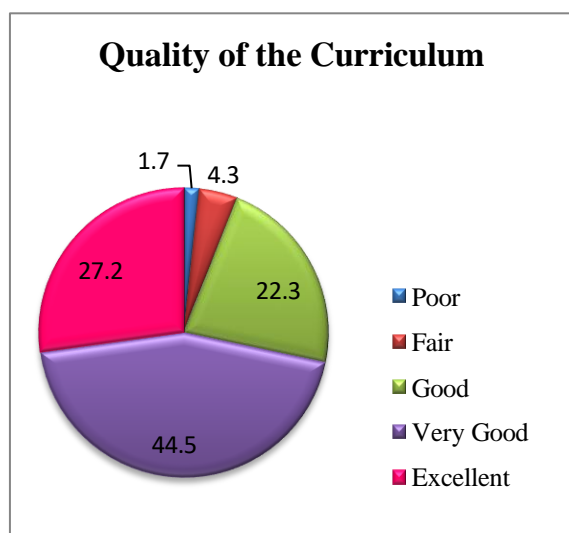

Introduction :

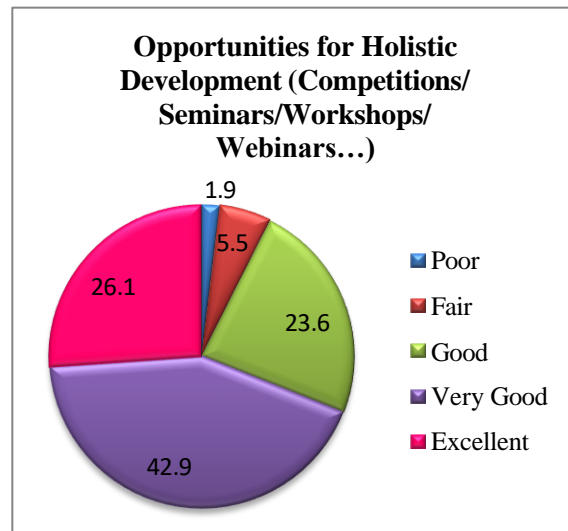

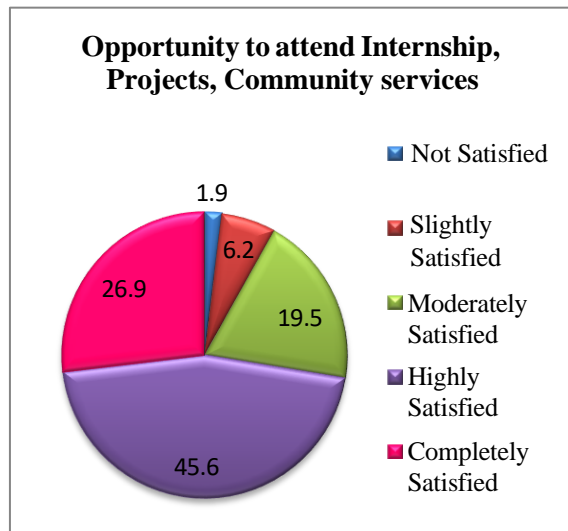

The Principle of the Exit survey is to gather feedback on the services the student has received during the period they have participated in the program. The survey will also reflect what has contributed to the students' success in the program, and any recommendations or improvement looked-for in-service delivery. The Exit Survey was developed by Internal Quality Assessment Cell (IQAC) and it was taken up by the Final year students through LMS(Camu).

The survey explored five main areas including Curriculum, Teaching Learning, Infrastructure, Skills and Support systems. This report summarizes the findings in these areas.

Curriculum :

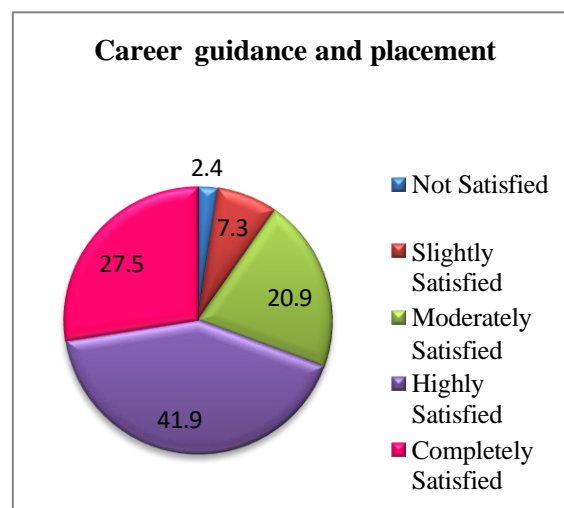

Students felt that Content / Strength of the syllabus is excellent and supply which is 45.4% completely relevant and 27.5 % mostly relevant to Higher studies and carrier development. They are Highly Satisfied with project, Internships and community services. 69% of Students perceives that opportunities for holistic development was Excellent.

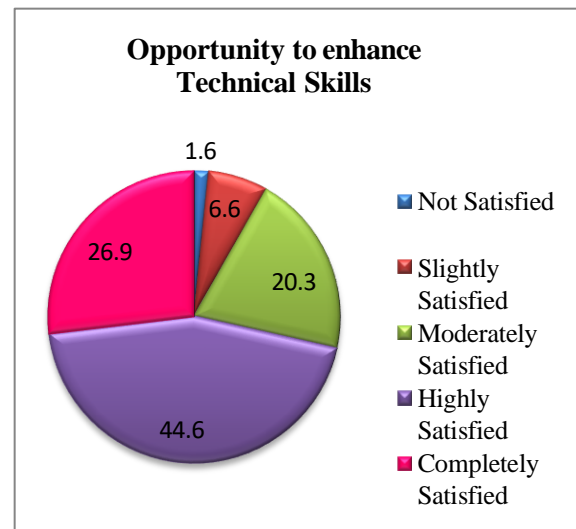

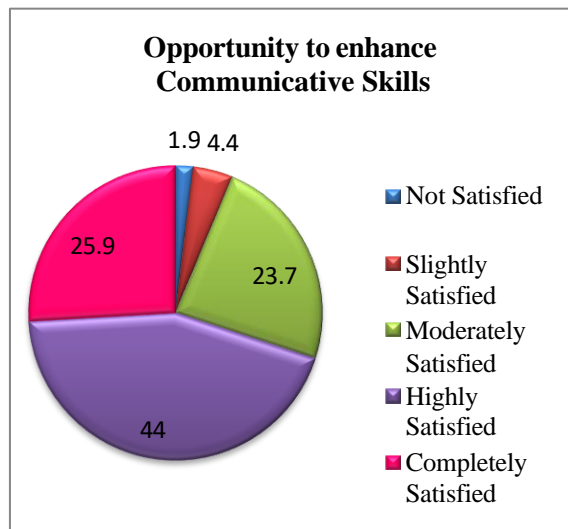

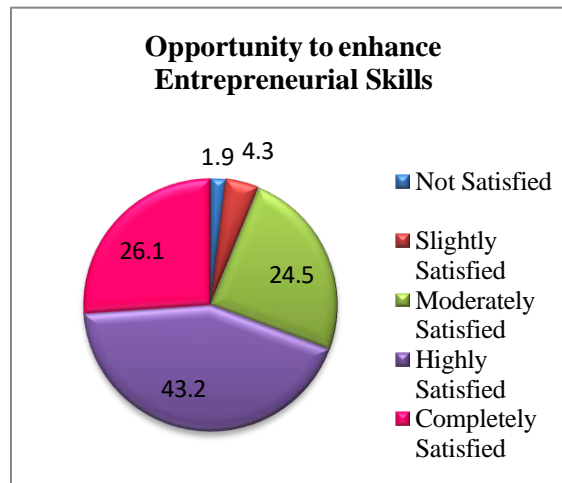

Placement Cell:

Seventy percent (70%) of Students reported that they are highly satisfied with the placement opportunity provided. More than half of all Students believed that oral presentation skills, writing skills have been significantly improved by the training provided by the Placement cell.

Skills :

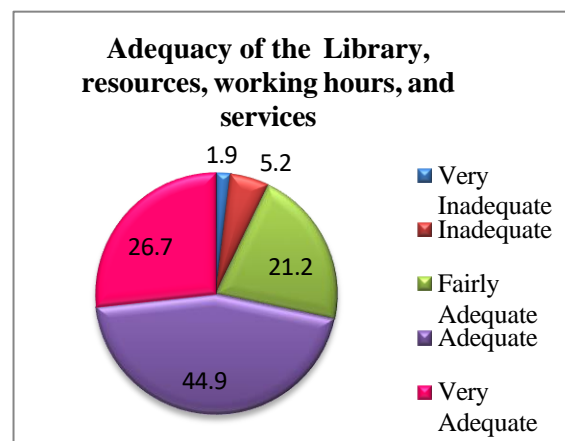

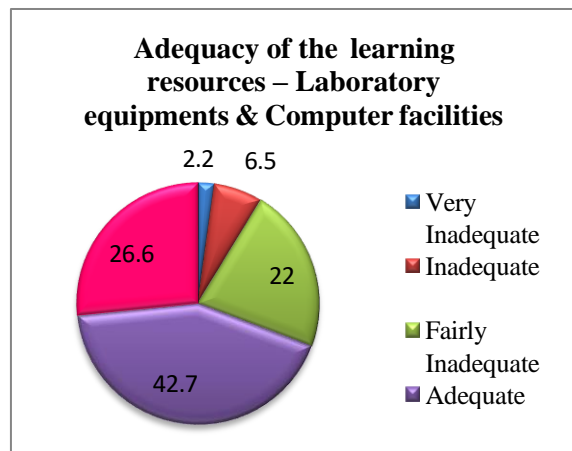

Entrepreneurial Skills: Overall, the results suggest that students perceived their achievement of learning outcomes related to entrepreneurship is high. Forty-three percent (43%) reported significant improvement in their ability to prepare effective business plans. 26% of students believed that their skills related to organization or management significantly improved.

Infrastructure:

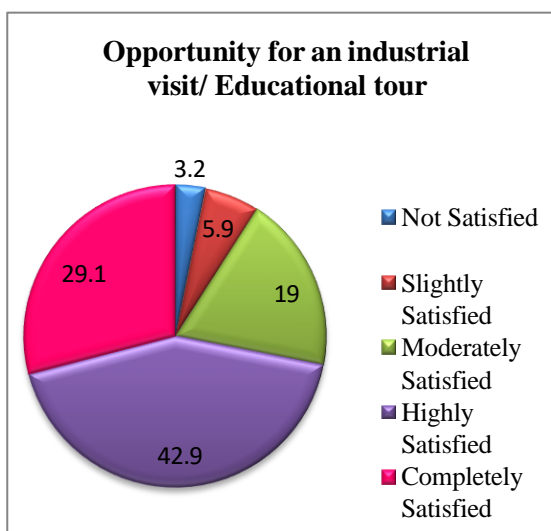

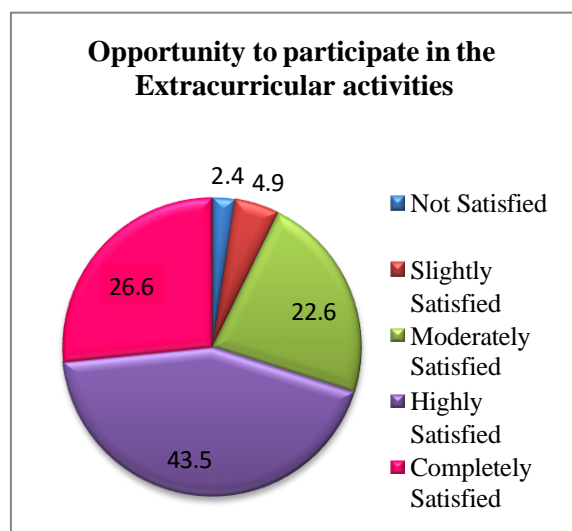

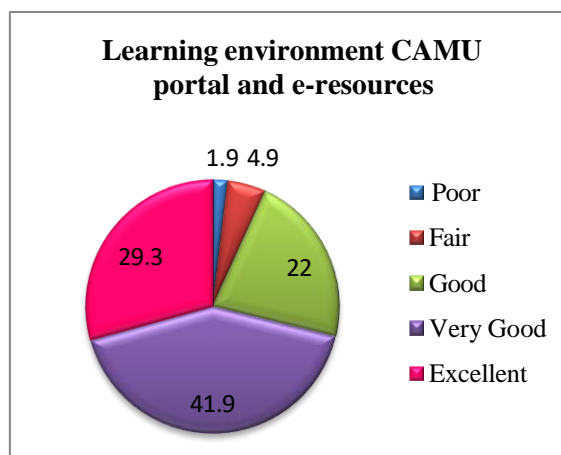

Students felt that Campus Facilities, Laboratory equipments and computer laboratories that are provided by institution is more sufficient.

Most of the students opines that the library has provided adequate resources.

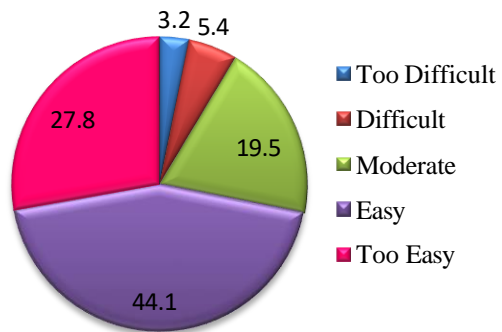

Teaching Learning:

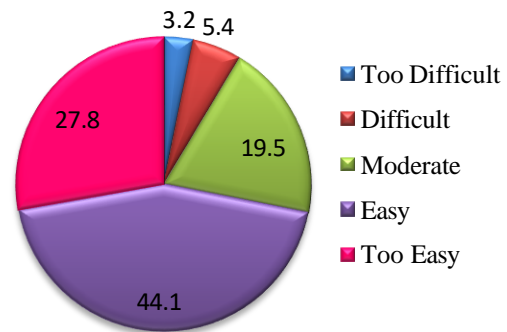

More than Half of the Students (72%) observed that LMS system provides innovation in learning activity and they enjoy using it for academic purposes.

Conclusion:

The results of the Program Exit Survey - provides useful feedback from our Outgoing students. The survey also assessed students' achievement of desired learning outcomes, programme and service quality ratings and Students' overall satisfaction with the College experience. This report explored the findings of the survey and provides valuable information which can be used in conjunction with other institutional research data to improve College's effectiveness in its operations. The results show opportunities for improvement in the achievement of desired learning outcomes related to entrepreneurship, job preparedness, and social awareness among the students. Further, the findings point to areas for improvement.
