STUDENT SATISFACTION SURVEY REPORT 2019 – 2020

FEEDBACK

STUDENT SATISFACTION SURVEY

Introduction

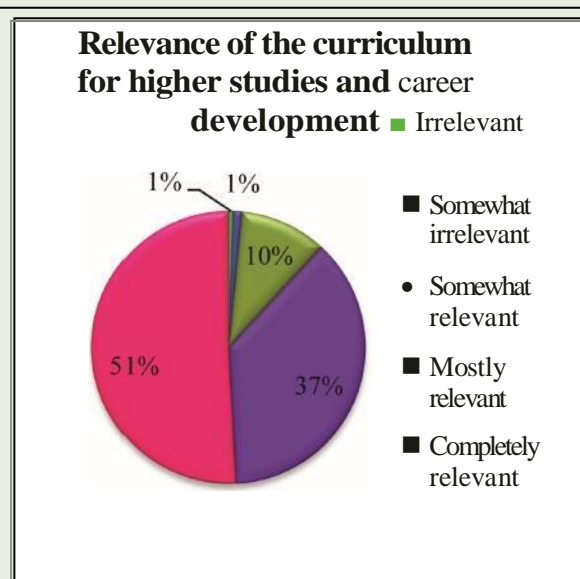

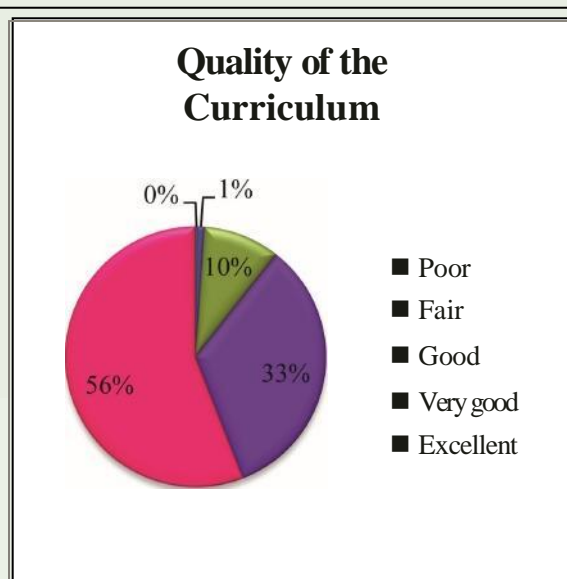

The Program exit survey enables a platform to record the observations of the stakeholders and the lapses are also brought to the limelight. Hence it serves as a launch pad to move towards quality by setting right the flaws.

At the end of the academic year, the IQAC and CDC of the college frame a questionnaire by considering all the aspects of the program of study (both UG & PG) and it will be uploaded in the campus LMS CAMU to conduct the online survey to the final year students. A time period will be allotted and the same will be informed to the students. The data collected through CAMU will be analysed and interpreted to draw suggestion for further enhancement.

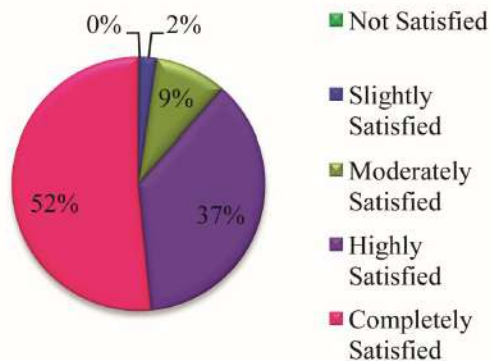

The survey explored five main areas including Curriculum, Teaching and Learning, Infrastructure, Skills and support systems. Findings are listed under the above headings.

Curriculum:

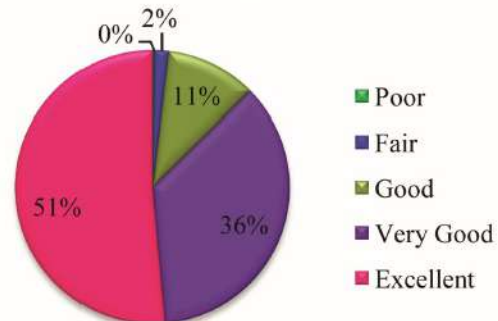

89% of the students felt that the quality of the curriculum of their courses is very good and also 88% of them felt their curriculum is relevant to higher studies and career development. 89% of the students reported that they are highly satisfied with the opportunities given to them to attend internships, projects and community services and also for holistic development.

Opportunity to attend Internship, Projects, Community services

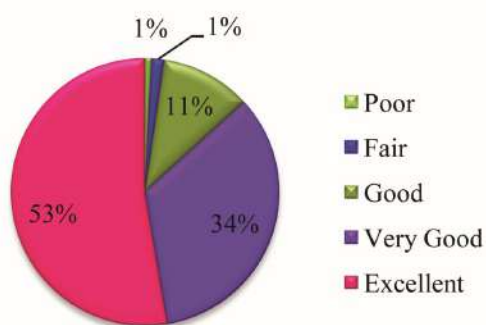

Opportunities for Holistic Development (Competitions/ Seminars/Workshops/ Webinars...)

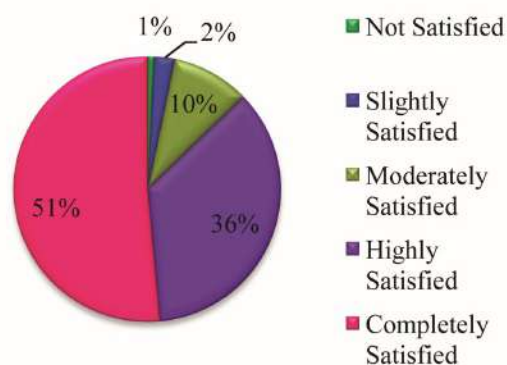

Teaching and Learning:

Also eighty seven percentage (87%) of the learners expressed their satisfaction on the campus learning management system CAMU which is very much effective and fully utilized for teaching and learning.

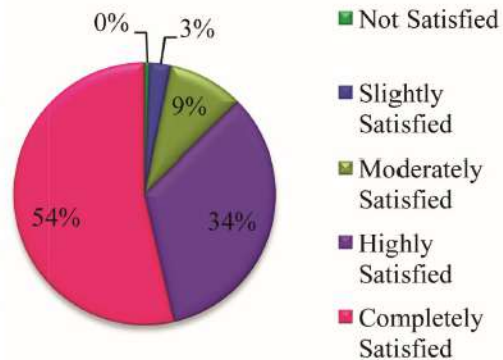

Learning environment CAMU portal and e-resources

Opportunity to participate in the Extracurricular activities

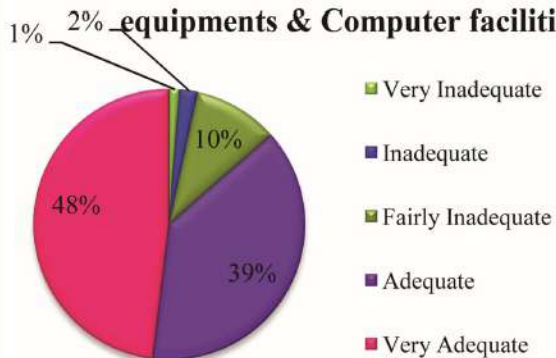

Opportunity for an industrial visit/ Educational tour

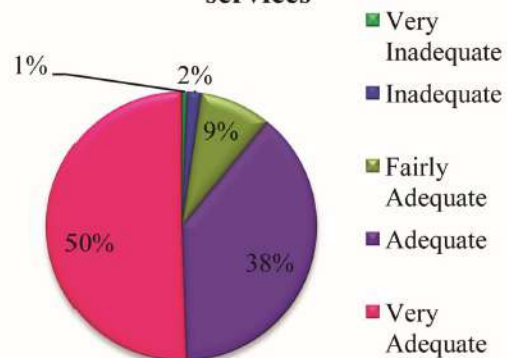

Infrastructure:

Eight seven percentage (87%) of the students reported that the laboratory equipment, computer and library facilities are adequate in the campus.

Adequacy of the learning resources – Laboratory equipments & Computer facilities

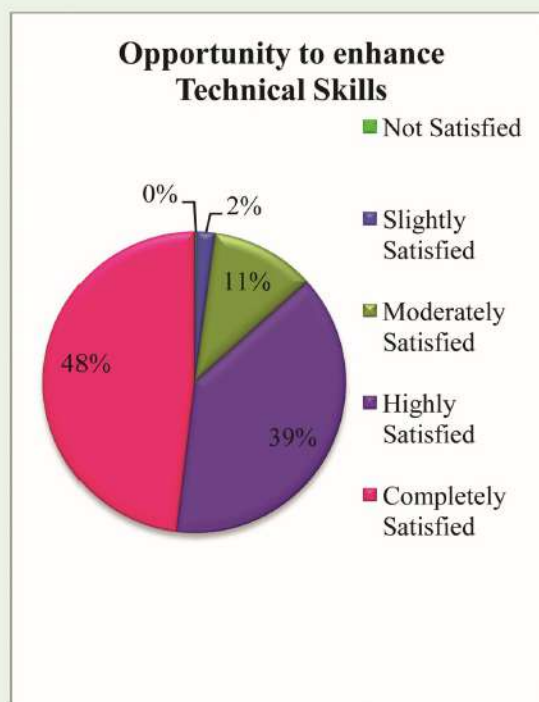

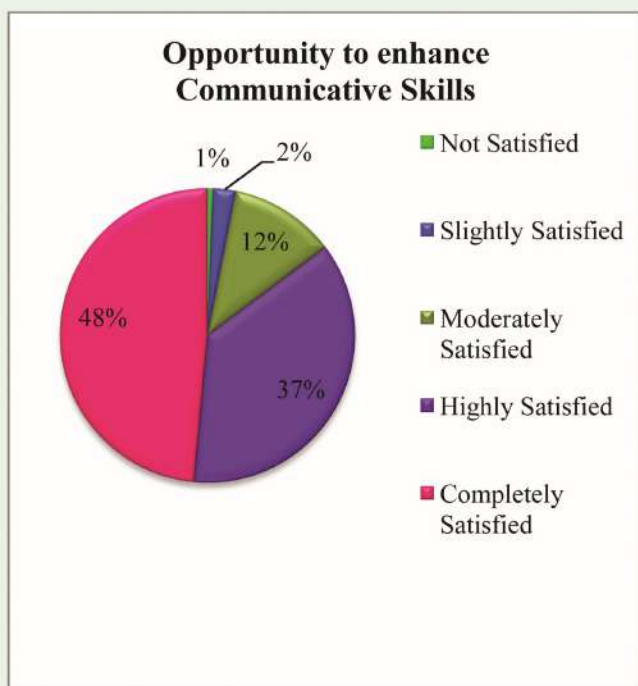

Adequacy of the Library, resources, working hours, and services

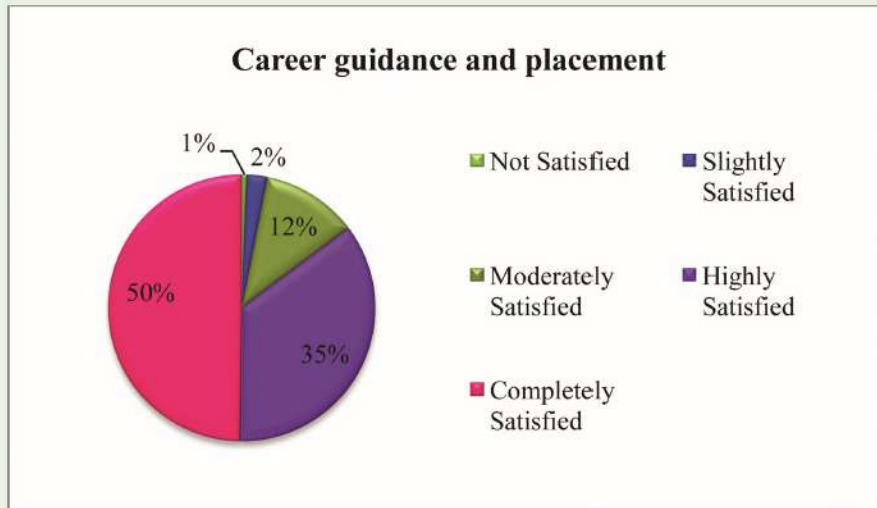

Skills :

It is evident that the steps taken to enhance the entrepreneurship skills, communicative skills and technical skills are really beneficial and highly satisfied for more than eighty five percentage (85%) of the learners.

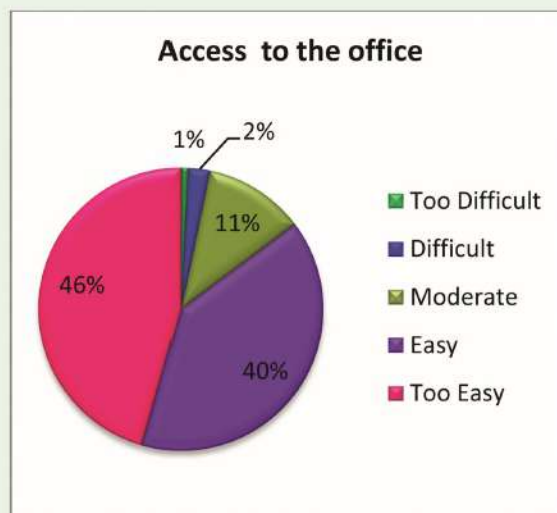

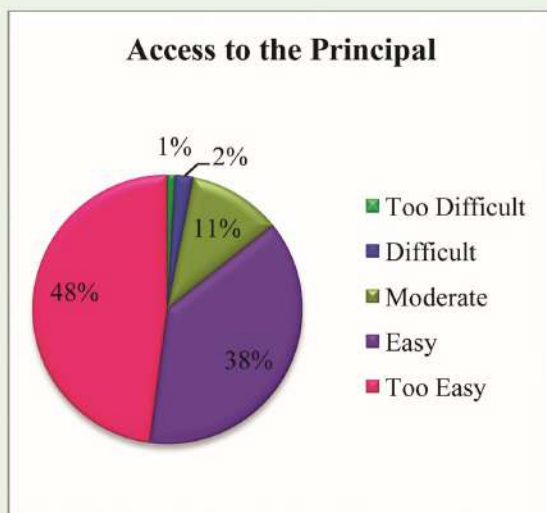

Placement:

Eighty five percentage are highly satisfied with the placement opportunity provided and all the programmes to enhance their presentation and writing skills.

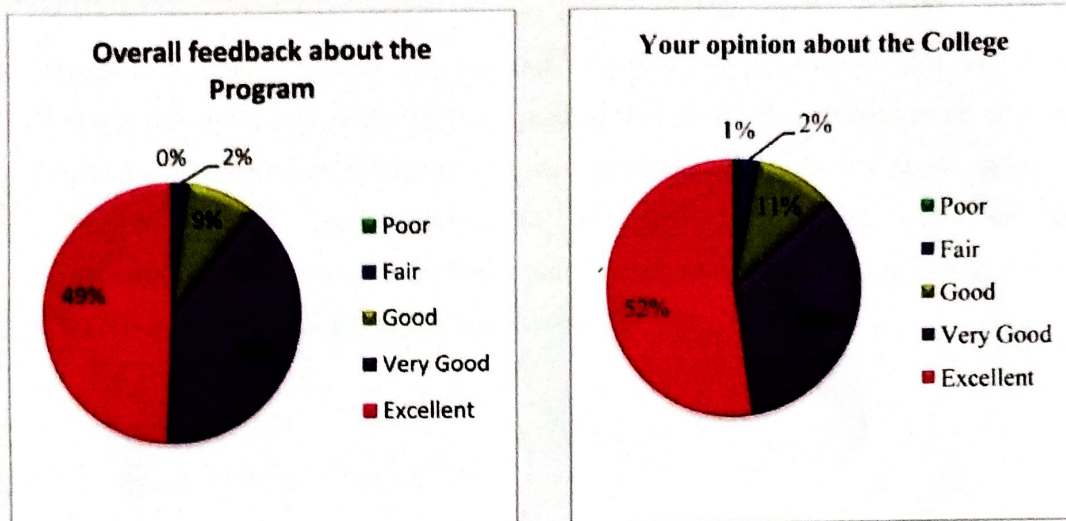

Administration:

Eighty six percentage of the stakeholders expressed their satisfactory opinion about the administrative activities of the authorities.

Overall Satisfaction:

Majority of the respondents stated that the overall satisfaction towards the program (89 percentage) and the college (87 percentage) were very good.

Conclusion:

Analysis of the program exit survey reported that each and every activity of the college is highly satisfied for the students, the beneficiaries. This report explored the finding of the survey and provides valuable information which can be used in conjunction with other institutional research data in improving college's effectiveness in its operation. The results show 10-15 percentage opportunities for improvement in the achievement of desired learning outcomes related to all attributes. This will lay pathway for enhancement
